

JMK Demo Connection GoToMyPC

1. You will receive an invitation via email to join JMK staff on office PC.

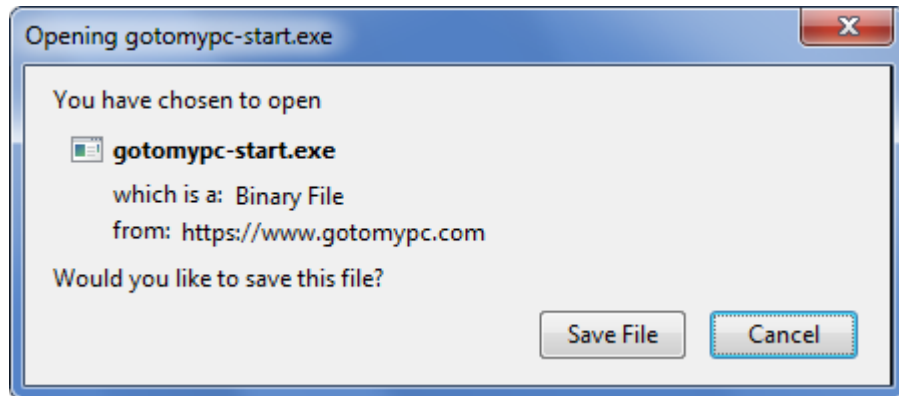

Click on the **link** in the invitation and you will be directed to the following screen

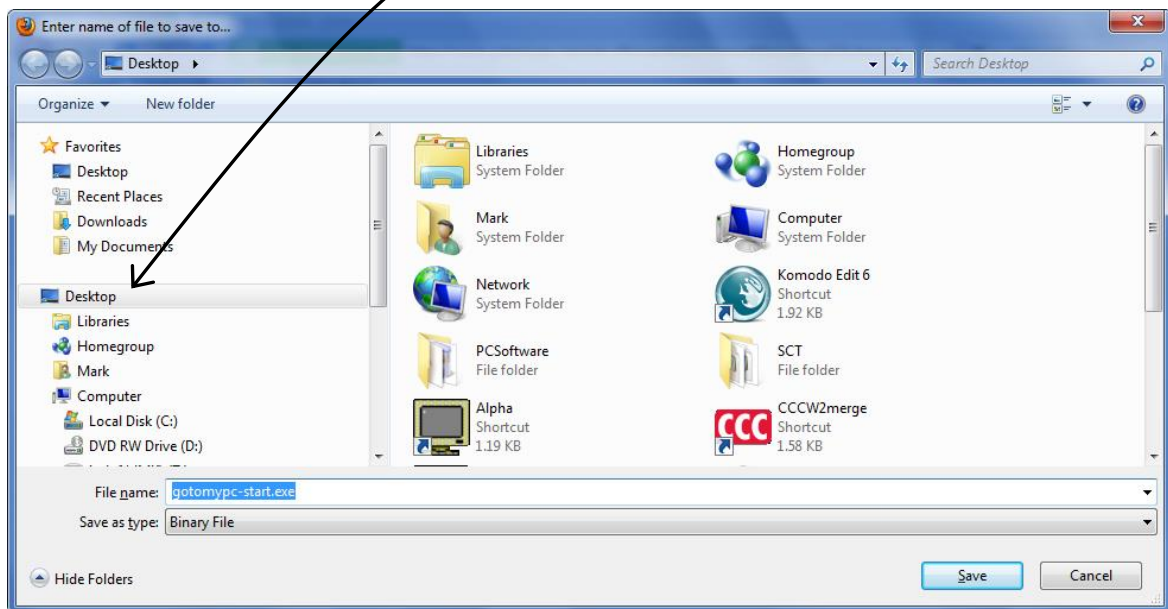

Click on the **Start** button to begin.

2. You will be prompted to **Save** a file, which you must install to make the connection.

☞ This file can be deleted after the session is over, it will only work **once** to make the connection.

- a. It is recommended that you save this file to your **desktop** for ease of use.

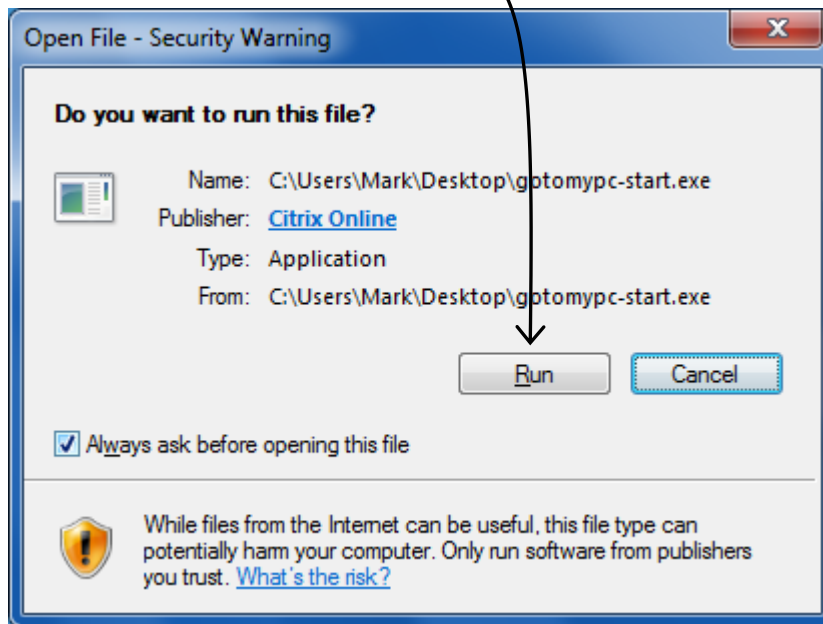

3. After saving the file you must then **double click** on the file to run it.

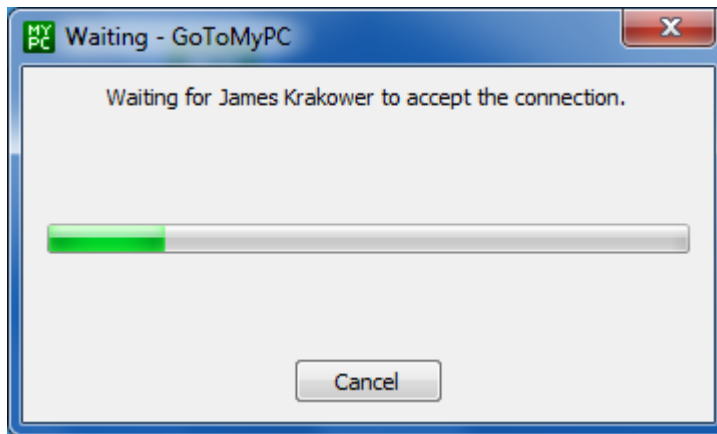

If it was saved to your Desktop it will be easy to find.

One may get a Windows **Security Warning** click on Run to start.

4. After the program runs you will see the **Waiting for {JMK Staff Name} to accept the connection** window until your connection is accepted.

After your connection is made you can control your session through the **GoToMyPC** menu at the top of the screen.

Under the **View** menu find options for changing your display.

When you are finished look under the **File** menu to close the session.
