Add desired selections to export list

A **right click** of the mouse on the desired part will display a list of NAPA stores you have added to your system.

You can specify parts/pricing/availability from any specific store or all stores. These will be displayed on the bottom grid from which you can select which, if any, to add to your invoice.

A right click on an item on the bottom grid will display the options:

- Remove Selected
- Export Selected
- Export All
- Order Selected

When **Export All** is selected, the work order screen will display similar as shown:

Using Applications / Front Counter

Select multiple lines by clicking on them while holding down the **Ctrl** key.
You can then select to **Order Selected**

A new window will appear with the NAPA PO number and the parts ordered giving you the options to **Cancel** or **Order** the selected parts.

Select **Order** to place the parts onto your work order.

The screenshot shows a window titled "OrderForm" with a blue header bar. Below the header, there are two input fields: "Store" containing "NAPA Store 2" and "PO Number" containing "WB05597A". Below these fields is a table with the following data:

Line Code	Part Num	Desc	Core Price	Your Cost	Qty
UP	UP10871	REMAN BRA...	9.00	63.69	1
ATM	D1032DP	BRAKE PADS	0	66.49	1

Below the table is a large grey rectangular area. At the bottom right of the window are two buttons: "Cancel" and "Order".

When finished with the parts/pricing application simply close the app by clicking on the windows X button to return to the JMK application.
